SUMMARY

I'm Muhammad Sufyan, a computer science graduate from DHA Suffa University, specializing in development and design. My journey in computer science has been both exciting and fulfilling, driven by a passion for creating impactful digital experiences. As a developer, I've honed a versatile skill set that spans web design, UI/UX, and Front-End Development.

EDUCATION

DHA Suffa University

Bachelor's Degree in Computer Science
2020 – 2024

SKILLS

Front-End Development | ReactJS • NextJS • Tailwind CSS • Bootstrap • Wordpress

Back-End Development | NodeJS • Express • MongoDB • SQL • Python (Django) • Firebase

Soft Skills | Communication Skills • Team Player • Adaptability • Problem Solving

PROJECTS

Career-Up (MERN Stack):

- Developed a career guidance platform with personalized counseling, courses, and resource recommendations.
- Integrated front-end and back-end features.

Guston Grill (React.js):

- Created a fully responsive, visually appealing restaurant website, optimized for performance and user experience.

Cartify (JavaScript, Firebase):

- Built a mobile-first eCommerce platform with a secure cart experience, utilizing Firebase for real-time database operations.

EXPERIENCE

Front-End Developer Intern

Edwom Tech | August '24 - Oct '24

- Developed two websites using WordPress, incorporating various plugins, particularly with Elementor.
- Developed a MERN stack project with a responsive front-end using Tailwind CSS and React, integrating Google OAuth.
- Tested and debugged APIs with Postman, addressing back-end issues to optimize application performance.

Front-End Developer Intern

Info AidTech | June '23 - July '23

- Mastered core JavaScript concepts through hands-on application in 5 projects.
- Developed a modern, fully responsive restaurant website using React.js.

Front-End Developer Intern

Interns Pakistan | March '22 - April '22

- Gained foundational knowledge in front-end development, mastering essential HTML, CSS, and JavaScript concepts.
- Developed a COVID-19 detection app, applying front-end skills to a real-world project.
- Hosted and managed a website using PHP and WordPress, ensuring smooth deployment and functionality.
